

WAMGROUP®

WAMGROUP aims for worldwide leadership in the supply of equipment for Bulk Solids Handling, Waste Water Treatment and Renewable Energy Generation.

WAMGROUP regards honesty and fairness as cornerstones in its relationship with customers, suppliers, business partners, stakeholders and employees.

WAMGROUP intends to be innovative in the development, industrial manufacturing and distribution of market-oriented equipment through specialised distribution channels.

WAMGROUP is determined to supply the most comprehensive range of equipment available to deliver the one-stop-solution in the area of Bulk Solids Handling, Air Filtration, Mixing, Waste Water & Sludge Treatment, Renewable Energy Generation and Vibration Technology.

WAMGROUP will always do its best to offer any customer in any place in the world the highest possible quality product and service at the most competitive price.

Since in 1969, Vainer Marchesini, founder and current Chairman and C.E.O. of the Group, manufactured his first Screw Conveyor the name WAM® has come to stand for innovation in Bulk Material Handling Technology and Equipment Supply.

**Solutions for
Waste Water
Treatment Plants**

PRODUCT RANGE

BULK SOLIDS HANDLING

..... AND DISCHARGING EQUIPMENT

PRODUCT RANGE

DUST COLLECTORS & SILO VENTS

FLOW INTERCEPTING VALVES FOR POWDERS & GRANULAR MATERIALS

PRODUCT RANGE

**INDUSTRIAL MIXERS,
CONDITIONERS &
GRANULATORS**

CONCRETE RECLAIMERS

PRODUCT RANGE

WASTE WATER TREATMENT EQUIPMENT

PRODUCT RANGE

CONCRETE VIBRATORS – EXTERNAL VIBRATORS – FLOW AIDS

PRODUCT RANGE

SHIP LOADING & UNLOADING PLANTS

PRODUCT RANGE

EQUIPMENT FOR BIOGAS PLANTS

MANURE AND BIOGAS DIGESTATE SEPARATORS

HYDRODYNAMIC SCREWS

R&D Activities

R&D regarding handling and processing of powders and granular materials.

- **BASIC RESEARCH**
- **APPLIED RESEARCH**

Participation at research programmes in collaboration with Italian and international institutes, working together on international long-term projects with partners from the industry, as well as Italian and international universities.

R&D Activities

Research activities :

**Analysis of powdery
and granular
material behaviour**

**Internal material characteristics
during conveying and mixing**

**Interaction of materials with
containers and conveying devices**

**Advanced innovative construction material analysis for
designing components for screw conveyors, dust collectors,
mixers and valves.**

**Analysis of new production processes for the manufacture of
components for screw conveyors, dust collectors, mixers and
valves.**
